CHAPEL

TENTH BIENNIAL REPORT OF THE EXECUTIVE  
BOARD OF THE MONTANA STATE REFORM  
SCHOOL, NOVEMBER 30, 1914.

---

TO HIS EXCELLENCY, HONORABLE S. V. STEWART,  
GOVERNOR:

In compliance with Section number 3083 of the Penal Code of Montana, the Executive Board of the Montana State Reform School, herewith submit their biennial report for the period ending November 30, 1914.

H. W. George, after almost six years service as President resigned, and on June 1, 1914, was succeeded by A. C. Dörr.

Mr. George resigned his office voluntarily because he preferred other lines of work. His departure was greatly regretted by the entire School, both inmates and officials. His years of service were faithful ones and were fruitful in many benefits to the School and the work among the unfortunate boys and girls of the state who were committed to his charge.

Our population is eighty-five boys and seventeen girls, an increase of fifteen girls for the biennial period.

Six hundred ninety-six children have been received since the opening of the School. Seventy-seven boys and sixteen girls have been admitted during the past biennial period; thirteen boys returned for violation of parole and four returned in honor. During the two years past we have paroled eighty-six boys and one girl; one boy discharged on age limit; one discharged on expiration of definite commitment; one committed to penitentiary; two released who were tubercular; one released by order of Judge Clements of Lewis and Clark County; one boy pardoned; and one boy drowned.

Approximately the same routine has been followed as to instruction as during previous years, keeping up with modern methods used in schools of this nature.

The health of the children has been excellent. Most of the sickness has been of minor importance. Those of the more serious were a fractured leg, a mild case of diphtheria, two operations for appendicitis, an operation for mastoid, and operations for the removal of tonsils and adenoids.

The shops have been kept going with as many boys given instruction as could be accommodated. All of the clothing and shoes used are made in the shops as is also considerable new furniture.

The discipline in the School has been good. There is a good feeling among the children towards the School and very few are discontented.

#### **Educational Department.**

The course of study as prescribed by the Superintendent of Public Instruction is followed in our School of Letters. The work covers the grammar grades. All children who have not passed the eighth grade attend school half of each school day.

Children leaving here are able to continue their studies in the public schools without interruption. Noticeable progress is made by most of the students.

A glee club has been formed among the boys and vocal music is taught in the schools.

#### **Band.**

We have a band of about twenty-five pieces and instruction is given for one and one-half hours five evenings a week.

#### **Religious Services.**

Sunday School is conducted every Sunday morning, with services in the afternoon by ministers of different denominations from the city. Catholic services are held twice each year for the children of this denomination.

#### **Manual Training Department.**

Certain boys who show a preference for this work are detailed to this department. We would prefer to have a farm large enough to give employment to most of the boys and conduct a Manual Training Department the same as is done in outside schools, giving all of the boys a few hours instruction each week. In our estimation the instruction given the boys on the farm and in the care of stock and so forth is of more value to them than most anything we can give them. Nearly all boys prefer this life and it should be encouraged in every way possible.

### Printing Shop.

A small printing shop has been established during the past year and a monthly paper is being published by the boys. A job press has recently been purchased and is now being installed. Two boys are at present employed in this shop and are getting valuable experience in this line.

### Improvements.

A tennis court has been made for the use of the girls.

Rugs have been purchased for the girls' department, making it more pleasant and homelike.

A Powers 6A moving picture machine has been purchased at a cost of two hundred twenty-two (\$222.00) dollars and is now installed, and weekly shows are given, consisting of educational, industrial, scenic, and comedy pictures.

New bed fabrics are being put on about sixty of the old beds, the old fabrics were rusted and worn out.

A Company officer, who is also an experienced gardener, has been employed and the boys will receive beneficial instruction in this branch of our industries.

A two-inch pipe has been laid from the boiler room to the play grounds so the grounds may be flooded and a skating rink made for the children's use in the winter.

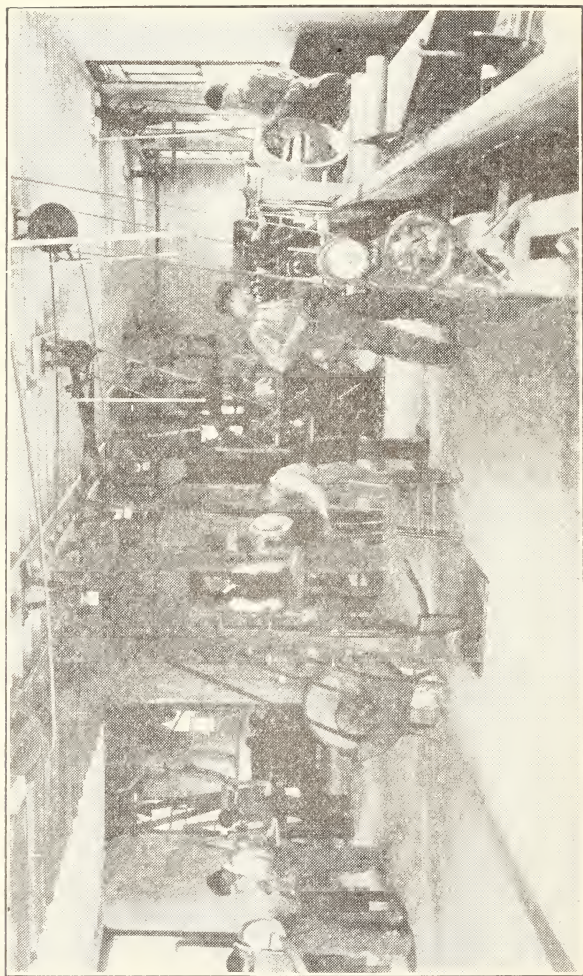

Seventy-five feet of concrete hog trough has been built in our hog yard.

A registered Poland China boar and sow have been added to our herd of hogs.

A large electric fan has been placed in our ailor shop, it being directly over the boiler room and extremely hot in the summer months.

### Recommendations.

We earnestly recommend the purchase of additional land for the School. A quarter section of land lying to the east of the School can be purchased now for one hundred (\$100.00) dollars per acre. This should be purchased as soon as an appropriation can be secured. We also recommend the purchase of a twenty acre tract adjoining the School's property on the south and twelve acres across the road and directly in front of our buildings.

CARPENTER SHOP

We are much in need of a dairy barn, silo and creamery. We have not sufficient room to house our stock now. It is impossible for us to fulfill the provisions of the dairy laws of our state as long as our cows and horses must be kept in the same building. With the addition of a few more cows to our herd we will be able to make our own butter. The boys are entitled to the instruction and they could get it by having a small model creamery. Dairying is becoming one of the most profitable industries in this state.

Another necessity is a piggery and a hennery. The buildings being used for such now are but makeshifts and should be replaced by up-to-date buildings this next summer.

There is a movement on foot to establish a separate institution for girls. We are in favor of this, but if it is not done we should be provided with suitable quarters to care for them. With the increasing number of girls being sent here it is difficult to care for them and give them the outdoor exercise they should have while they are situated within one hundred and twenty feet of the boys' building. We have no way of separating the older and more vicious girls from the younger ones and this condition should not continue.

The boys should be classified more, small innocent youngsters should be entirely separate from the older and more experienced boys. The vacation of the building now being used for the girls will enable us to classify the boys more satisfactorily.

An agency system, directly under the management of the School, should be established. We consider this one of the most important departments in an institution of this kind. The agent should have headquarters at the School and should know the children before they are sent out. He should visit the homes of the children as soon as possible after their admission, get in touch with their relatives and friends and get a complete history of each case. We get but a very meager history with the commitment. This would also be a splendid medium through which to establish the friendly and helpful interest of the good people of our state. Too little is known by the residents of this state of the nature of this School and what is being done for the children.

On June 1st only about twenty per cent of the paroled boys were reporting to the School monthly as required by law. We have undertaken to write to each of the paroled boys the

first of every month, with the result that in the month of October ninety-three per cent of those who we were able to reach by letter reported. We have spent some time and money looking up some of the boys who were delinquent with the result that two who were not doing well were returned to the School and others straightened out so they are now doing better.

Turning a boy out of the School to again make a place for himself in society without kind and wise supervision is apt to undo all the good the School has done for him. A timely visit, a cheering word from an agent of the School, some one to whom he could go for advice and counsel would keep many a boy from falling into the old ways which were the cause of his trouble in the first place.

A small greenhouse would be of great use beside giving the boys useful instruction in the propagation of plants.

No addition to the library has been made for some time and we should have a small yearly appropriation for this.

There are many repairs to be made around an institution as old as this and a separate yearly appropriation should be made for extraordinary repairs.

The insurance on our buildings and equipment expires March 1, 1915. We are carrying ninety-three thousand (\$93,000.00) dollars at a rate of \$2.42 for three years. If new buildings are added we will need an appropriation of three thousand (\$3,000.00) dollars.

Our boilers are old and it will be necessary to replace them during the next two years and larger ones should be installed to care for our future needs.

We are now using for a cold storage and store house an old building that was built for a barn and our stock of supplies is kept in two or three other places. We should have a new cold storage and store house.

We have but one root house. It is old and unsafe. It should be replaced by two new ones built of concrete.

A well equipped gymnasium should be provided. During the long cold winter months it is not possible to give the children the exercise they need. Large employers of young men recognize the benefits of a gymnasium and are supplying them. Where could one be more beneficial than in an institution of this kind?

An appropriation for the upkeep of our manual training department will be asked for.

A stigma is always attached to a child once an inmate of a Reform School. The title of the School should be changed to one more appropriate.

A tabulated statement of appropriations needed for the biennial period beginning March 1, 1915, follows, viz:

For the year ending March 1, 1916:

Maintenance .....	\$35,000.00
Additional land ... ..	26,000.00
Building for girls .....	40,000.00
Dairy barn, silo, creamery and equipment.....	6,000.00
Greenhouse .....	500.00
Library .....	250.00
Extraordinary repairs .....	500.00
State Agency .....	3,000.00
Insurance .....	3,000.00
Manual Training .....	2,000.00

For the year ending March 1, 1917:

Maintenance .....	35,000.00
Library .....	250.00
Extraordinary repairs .....	500.00
State Agency .....	3,000.00
New boilers (2) .....	3,000.00
Gymnasium .....	40,000.00
Store room and cold storage .....	6,000.00
Root houses (2) .....	2,000.00
Manual Training .....	2,000.00

Respectfully submitted,

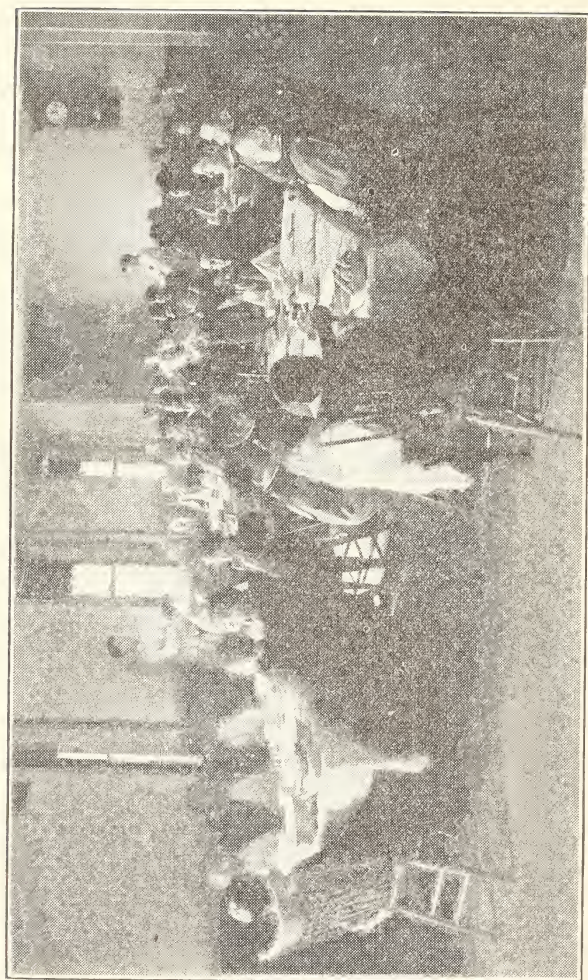

A. C. DORR, President.

C. W. BUTLER,

A. BUCHANAN,

Executive Board.

*BOYS' DINING ROOM*

## SUMMER MENU.

Menu for the Montana State Reform School for the week ending August 17, 1913.

## Monday, 8-11-13.

Breakfast  
Corn meal mush  
Corn meal gems  
Coffee, sugar, milk  
Bread, butter

Dinner  
Roast beef, cucumbers  
Bread, potatoes  
String beans, gravy  
Pickles

Supper  
String beans  
Bread, butter, milk  
Graham cookies  
Apple sauce

## Tuesday, 8-12-13.

Oat meal mush  
Corn bread  
Bread, butter  
Sugar, sauce

Boiled beef  
Potatoes  
Bread, gravy, cucumbers  
String beans  
Rice pudding

String beans  
Sugar, milk  
Bread, butter  
Cinnamon rolls  
Prune sauce

## Wednesday, 8-13-13.

Corn meal mush  
Coffee, sugar, milk  
Syrup  
Bread, butter  
Graham gems

Beef, gravy  
String beans  
Potatoes  
Bread, cucumbers  
Rice pudding

Bread, butter, milk  
Cinnamon rolls  
String beans  
Peach sauce

## Thursday, 8-14-13.

Corn bread  
Ceretana mush  
Bread, butter  
Coffee, sugar, milk

Beef, potatoes  
Bread, gravy  
String beans  
Stewed tomatoes  
Rice pudding

Bread, butter, milk  
String beans  
Ginger cake  
Prune sauce

## Friday, 8-15-13.

Corn meal mush  
Coffee, sugar, milk  
Corn bread, syrup

Roast sweet corn  
Bread, gravy  
Potatoes, string beans  
Cottage pudding

String beans  
Bread, butter, milk  
Cinnamon rolls  
Peach sauce

## Saturday, 8-16-13.

Oat meal mush  
Biscuits, syrup  
Coffee, sugar, milk

Potatoes  
Roast beef  
Bread, roast sweet corn  
Rice pudding

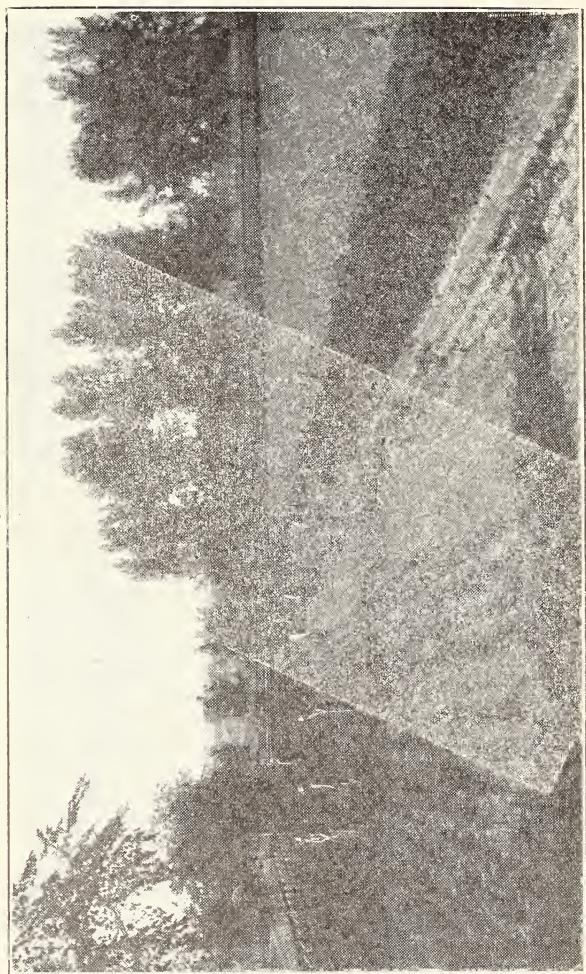

Baked beans  
Bread, butter, milk  
Cucumbers  
Apple sauce

## Sunday, 8-17-13.

Corn meal mush  
Bread, butter  
Coffee, sugar, milk

Potatoes  
Roast beef, bread  
Roast sweet corn  
Apple pie

Cheese  
Bread, butter, milk  
Cocoanut cake  
Prune sauce

GARDEN

## WINTER MENU.

Menu for the Montana State Reform School, for the week ending December 1, 1914.

## Monday, 11-23-14.

Breakfast  
Corn meal mush  
Graham gems  
Bread, butter, syrup  
Coffee, sugar, milk

Dinner  
Boiled beef  
Bread, potatoes  
Rice pudding

Supper  
Boiled beans  
Bread, butter, milk  
Ginger cookies  
Peach sauce

## Tuesday, 11-24-14.

Oat meal mush  
Corn bread  
Sugar, coffee, milk  
Bread, butter

Mutton stew  
Bread, potatoes  
Gravy, cabbage  
Tapioca pudding

Macaroni and cheese  
Bread, butter, milk  
Cinnamon rolls  
Peach sauce

## Wednesday, 11-25-14.

Oat meal mush  
Bread Butter, milk  
Hash  
Sugar, coffee

Corned beef  
Boiled dinner  
Potatoes, bread  
Cottage pudding

Bread, butter, milk  
Hominy  
Cinnamon rolls  
Peach sauce

## Thursday, 11-26-14.

Corn bread  
Syrup  
Bread, butter  
Oat meal mush  
Coffee, sugar, mush

Roast turkey, dressing  
Mashed potatoes  
Giblet gravy  
Creamed corn  
Piccalilli  
Cranberry sauce  
Bread, butter  
Fresh apple pie  
Mince pie  
Apples, bannanas  
Coffee
